V About the Department

Department of Beauty Science and Cosmetics

Master's/Doctoral course

The Department of Beauty Science conducts systematic theoretical education and on-site beauty technology education. Combining theory and beauty technology, we train competent educators in the field of beauty education and experts in the fields of hair, skin care, makeup, nail, and cosmetics. Since the establishment of the Graduate School of Beauty Science in 2002, the Department of Beauty Science in the general graduate school opened the master's and doctorate courses in 2007, and wasreborn as a specialized graduate school that solidifies the academic system in the field of pure beauty.

A student will complete a curriculum of hair beauty, skin beauty, makeup, and cosmetics. She will conduct research and projects in cooperation with beauty-related institutions and in cooperation with industry-academia, and conduct beauty-related research and education through beauty laboratories and clinical skin research institutes. This will cultivate beauty expertise and exploration skills, establish an educational system to create artistic creativity, and nurture beauty experts and leaders who can practice cosmetic research and artistic creativity in the field of beauty.

Doctoral degree

Department of Early Childhood Education

The department of early childhood education will nurture kindergarten teachers and nursery teachers with practical knowledge and theory that can promote the development of all young children, and will produce experts in each field. The postgraduate school of early childhood education learns the philosophical and psychological fundamentals of early childhood education, but builds the systematic theories necessary for early childhood education and nurture early childhood education experts through research. This will lead and cultivate the study of early childhood education and nursery, and will foster preschool education and nursery leaders who have a good early childhood education philosophy.

Career after graduation: national/public kindergarten and private kindergarten teachers, public and incorporated daycare center teachers, child-related research institutes and institutions, professors, early childhood education-related broadcasting, speech therapist, and play therapist

Department of Airline and Tourism Development

Master's Programs

The Department of Air Tourism Development is an educational curriculum that redefines awareness of social and regional tourism development, advances in the age of localization, and trains local tourism development professionals to lead the promotion of local tourism and creative tourism development in the interest of tourism development and the role of tourism developers. Research in tourism development will be conducted in order to develop professionals who can advance in various fields of tourism such as hotels and who can play a role inplanning and management in each field.

Department of Food and Nutrition

Master's course

The Department of Food and Nutrition is a department that nurtures the best practical creative talent (total managers) in the food industry, runs fun & Creative (exciting and creative), and has professors and experimental and practical infrastructure capable of specialization in food + nutrition + cooking. Food articles, food industry articles, food processing articles, food products, food processors, chefs, Children's culinary tutors, eating habits coaches, kimchi training tutors, Korean menu developers, Southern food culture diarrhea, Managers, bakers, bakers, sales managers, franchisors, May be certified by a Supervisor or others. After graduation, Jinro: Researchers at the Food Research Institute, University professors, food manufacturers, group catering companies, food sanitation jobs, Government officials, hotels, franchisees (family restaurants, Starbucks, Nolbu, etc.) The General Manager of the restaurant, the General Chef, Barista, sommelier, Party Chef, Food Coordinator, Party Planner, Menu Development Specialist, dining Consultant, dining out Franchise Specialist Association, Research and academic thesis symposium, etc.

Master's course

Department of Social Welfare

The Department of Social Welfare trains experts to provide assistance to individuals, families, groups, and community members who have problems to improve the happiness and quality oflife. In addition, various courses of study, such as the skills necessary to perform professional aid activities, the theory of social welfare systems and policies, research methodologies, and hands-on education in the field of community practice, will be used to produce professional social welfare workers through social welfare theory and practical clinical training.

Related certifications: Second Class Social Welfare Manager (Qualification for the First Class Test) Post-graduation career: Establishment of a social welfare-related institution (center), employment in the local welfare field (children, the disabled, the elderly, multiculturalism, and family welfare)

Department of Police Law

Master's course

The Department of Police Law is the only department that trains female students to advance to public posts by combining field training and practical skills. The School of Police Law conducts systematic research to cultivate future-oriented and creative police specializationand police leaders who will take responsibility for people's lives, property, social and public well-being and order by systematically acquiring a broad education and deep expertise as professional policemen. In addition, fire administration, prison administration, and other special-business police departments, which have close links with general police administration, will provide a place for research to improve efficiency and specialization of their operations.

Related certificates: Security guard instructors, judicial and administrative assistants, appraisal managers, etc.
