6 Department Introduction [Korean Track]

Department of Airline Service

The program aims to cultivate outstanding professionals who will lead the global aviation service industry, equipped with specialized aviation knowledge, strong foreign language communication skills, and a global mindset. In particular, its systematic and specialized curriculum has consistently produced the highest number of successful flight attendant placements in domestic and international airlines each year.

| Key Features |

- A total of 497 successful cabin crew placements in global airlines
- Enhancement of global competencies through overseas language training, exchange programs, international internships, short-term language programs, and global field trips
- MOUs established with T'way Air, Jeju Air, Air Seoul, JW Marriott, Hyatt, Singapore SATS, etc.

| Career Paths |

- Cabin crew for domestic and international airlines
- Ground staff at domestic and international airports
- Train and cruise service crew
- Careers in luxury hotels, resorts, and public enterprises

Department of Police Administration

The program aims to cultivate competent female police officers equipped with a strong sense of duty, professional knowledge, and effective practical response skills. As the only Department of Police Administration at a four-year women's university in Korea, it has been producing female police officers nationwide.

| Key Features |

- Specialized curriculum designed for training female police officers
- Career competency enhancement programs, including field training, mock physical fitness and interview tests for police recruitment, and field visits
- Academic and career guidance through a dedicated faculty advisor system

| Career Paths |

- Police officer
- Legal and administrative professional

Department Introduction [Korean Track]

Department of Social Welfare

Through specialized learning and field-oriented career support programs, the department achieved an employment rate of 90.0% in 2019 and 71.9% in 2023. It focuses on strengthening the core competencies required of social workers, while encouraging active participation in major-related clubs and external volunteer activities, fostering a collaborative relationship with the local community.

| Key Features |

- Volunteer fairs and volunteer activity competitions
- Club activities with Good Neighbors and ChildFund Korea
- Visits to domestic social welfare institutions and overseas field trips to social welfare organizations

| Career Paths |

- Social worker
- Healthy family specialist
- Integrated care professional

Department of Counseling Psychology

This department aims to train psychological professionals who provide counseling and support for children, adolescents, adults, and the elderly experiencing psychological difficulties, helping them achieve personal growth. In particular, students can become certified school counselors by completing a teacher training program accredited by the Ministry of Education, and the program actively supports the acquisition of promising professional certifications in the counseling field.

| Key Features |

- The only department in the Gwangju area offering a teacher training program for certified school counselors
- Opportunities to work as counselors in local education offices and multicultural centers
- Eligibility to obtain certifications such as Youth Counselor, Youth Leader, and Certified School Counselor

| Career Paths |

- Counseling professional
- Youth leader
- Certified school counselor
- Career counselor

Department Introduction [Korean Track]

Department of Korean Education

This department aims to cultivate professionals in Korean language education by providing knowledge of Korean as a second language, along with training and practicum in teaching methodologies. It also prepares specialists who promote the Korean language and culture globally through the study of Korean literature, culture, and related teaching methods.

| Key Features |

- Training global female professionals contributing to the internationalization of Korean language and culture
- Eligibility to obtain the Korean Language Teacher Certification (Level 2)
- Expanded global programs linked to the major, including overseas language training, exchange programs, international internships, and global field trips

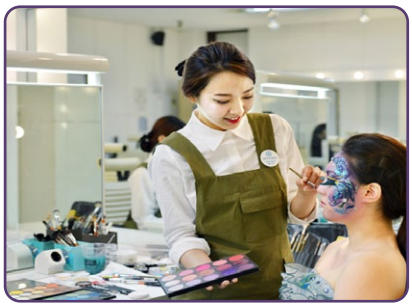

| Career Paths |

- Korean Language Instructor
- Interpreter & Translator
- Cultural Content Specialist
- Language Institute Staff

Department of Beauty Science

As the first four-year university beauty program in Korea, this department covers major fields including hair, makeup, nail, and skincare. After admission, students receive specialized training in their chosen field starting from the second year. The program also fosters future-oriented beauty professionals through courses incorporating advanced technologies related to the Fourth Industrial Revolution.

| Key Features |

- Korea's first four-year beauty program offering bachelor's, master's, and doctoral degrees
- Eligibility to obtain comprehensive licenses (hair, makeup, nail, skincare)
- Advanced training facilities tailored to each specialization

| Career Paths |

- Beauty industry professional
- Beauty education specialist
- Beauty content creator
- Makeup artist for broadcasting and film
- Scalp and hair loss care specialist
- Therapist

Department Introduction [Korean Track]

Department of Cosmetic Science

The program aims to cultivate creative leaders who will lead the global K-beauty cosmetics industry, offering a systematic curriculum linked to industry practice—from cosmetic ingredient development and formulation research to product planning, efficacy evaluation, and quality control.

| Key Features |

- The only practice-oriented program in Gwangju specialized in cosmetic R&D
- Focused on developing core professionals across the entire cosmetics industry value chain
- Hands-on training and field-oriented education supported by advanced facilities

| Career Paths |

- Cosmetic research and development (R&D)
- Cosmetic quality control (QC/QA)
- Cosmetic clinical evaluation
- Product planning and marketing

Department of Food Contents

The program aims to cultivate professionals such as licensed sanitarians, food industry engineers, and food technologists, while also training experts in food culture content equipped with SNS expertise, content creation skills, and food marketing capabilities.

| Key Features |

- Practice-oriented professional training for sanitarians, food industry engineers, and food technologists
- Opportunities to obtain certifications in fermented foods, barista skills, pastry and baking, and pet food
- Training in food service industry and K-food SNS activities, fostering YouTubers and content creators

| Career Paths |

- Quality control manager in food companies
- Food service industry manager
- Pastry and bakery specialist

Department Introduction [Korean Track]

Department of Spatial Design

As the first interior and architectural design program established in the Honam region, this department cultivates professional spatial designers through both theoretical and practical training in architectural design, interior design, and visual & media design.

| Key Features |

- Training convergent total designers in spatial design (architecture, interior, environment) and media design (digital graphic-based spatial presentation)
- Annual awards in nationwide design competitions
- Talent-sharing volunteer activities organized by the Ministry of Agriculture, Food and Rural Affairs

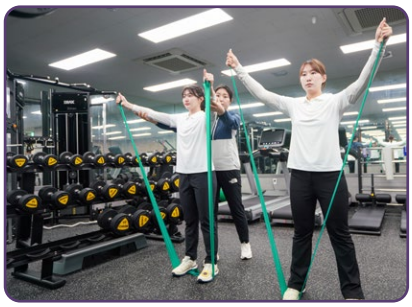

| Career Paths |

- Certified interior architect/industrial engineer
- Certified architect/industrial engineer
- Certified colorist/industrial engineer
- Graphic designer

Department of Sports Rehabilitation

Through convergent education in sports rehabilitation therapy and coaching, the program aims to cultivate professionals in sports rehabilitation, health, and the sports industry who contribute to improving modern individuals' health and quality of life.

| Key Features |

- A prestigious sports university that has produced Olympic archery gold medalists Ki Bo-bae, Choi Mi-sun, and An San
- Strengthening competencies in designing personalized sports rehabilitation programs and exercise prescriptions based on scientific analysis
- Practice-oriented curriculum specialized in sports rehabilitation, coaching, and the sports industry

| Career Paths |

- Sports rehabilitation and health specialist
- Sports coaching and industry professional
- Sports safety manager
- Exercise specialist

Department Introduction [Korean Track]

Department of AI Media Contents

The program aims to cultivate future-oriented technical artist professionals who will lead the Fourth Industrial Revolution, offering a curriculum designed to develop convergent talents in artificial intelligence (AI) and immersive content.

| Key Features |

- Training AI convergence specialists capable of utilizing artificial intelligence, including generative AI
- Cultivating experts in immersive media and art (AR, VR, MR, XR), including AI-based webtoons, animation, and projection mapping content
- Fast-track employment opportunities through internships with partner companies

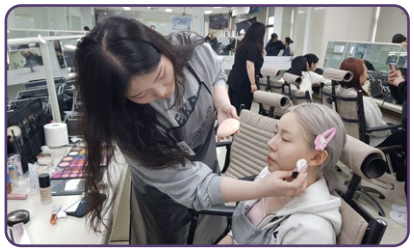

| Career Paths |

- AI convergence specialist
- Data scientist
- Immersive content specialist
- AI media content creator

Department Introduction [English Track]

Division of Global Convergence

Common Information

Students complete the common curriculum in the first year and select a specific major beginning in the second year.

| Key Features |

- A differentiated English-based curriculum integrating theory and practice
- Synergistic team-teaching by Korean and native English-speaking faculty
- Personalized learning environment supported by advanced multimedia-based educational content
- Academic support through various scholarships and student support programs

IT Major

- Cultivating IT professionals capable of integrating the latest technologies in computer engineering
- Career Paths: Software & Application developer, AI and machine learning engineer, information security specialist
